How to use this planner

Four small steps. That is the whole system.

1

Brain dump

Empty your head onto a Brain Dump page.
Everything, in any order.

2

Pick 3

Choose just three things for today. Write a first tiny step for each one.

3

Morning / Afternoon / Evening

Drop each one into a rough time block. No hourly grid needed.

4

Not done? Carry forward

Move it to Carry forward and pick it up tomorrow. No guilt.

Tap a date. Every month has its own 31 day pages. On Month 03, tap date 5 to open Month 03 · Day 5.

Weeks. The Wk buttons beside each calendar row open that week (Weeks 01 to 53, each with a review page).

Tabs on the right. The 10 tabs work on every page. Tap Home to come back to the start.

Undated. Write your own month names and dates. A 30-day month? Just skip Day 31.
