

Welcome. Let's get it on your iPad.

ADHD-Friendly Undated Digital Planner by Three Things Planners

What's in your download

- **ADHD-Undated-Digital-Planner_Light.pdf:** 591 pages, white background
- **ADHD-Undated-Digital-Planner_Dark.pdf:** the same 591 pages and links on a dark background
- **Quick-Start-Guide.pdf:** this guide (4 pages)

Pages are landscape 4:3, the same shape as an iPad screen. Pick one version (or import both and switch).

Unzip first

On iPad: open the Files app, tap the ZIP once, and it unzips into a folder next to it.

Import into GoodNotes

1. In GoodNotes, tap **New**, then **Import**.
2. Find the PDF in Files and tap it.
3. It opens as a new notebook. Start on page 1 and tap **Start here**.

Import into Notability

1. In Files, long-press the PDF, tap **Share**, then choose **Notability**.
2. Or in Notability, tap the **Import** button and pick the PDF.

Import into Xodo

1. Open Xodo, tap the **+** or **Open** button and browse to the PDF.
2. Xodo opens the PDF directly, links included.

Tapping links and copying pages

Every tab, date and button in the planner is a link.

If a tap draws a line instead of jumping

- **GoodNotes:** switch the notebook to **read-only mode** (the pencil icon at the top), tap the link, then switch back to write. Or tap the link with your **finger** while drawing with the Apple Pencil only is turned on in settings.
- **Notability:** tap links with your **finger**. If your finger draws, turn off finger drawing in settings.
- **Xodo:** use the pan (hand) tool, then tap the link.

Good to know

- Links may not work in GoodNotes for Windows. On iPad, Mac and Android apps that support PDF links, they do.
- Tap targets are large on purpose, about the size of a fingertip.

Need more pages? Copy them

- **GoodNotes:** open the page grid view, tap the small arrow on a page, choose **Duplicate**.
- **Notability:** open page thumbnails, select the page, choose **Duplicate**.
- **Xodo:** open page thumbnails, select the page, choose **Duplicate**.

You get a full year (12 months with 31 day pages each), so most people never need to copy. If you want an extra Brain Dump or Task Breakdown, move the copy to the end of the notebook so the original 591 pages and their links stay where they are.

Undated means flexible

Write your own month names, weekdays and dates. Month 01 is just your first month. A 30-day month? Skip Day 31. Skipped a week? Nothing goes to waste.

The 10 tabs on the right

They are on every page except the cover. The tab for the section you are in is filled in.

TAB	GOES TO	WHAT IS THERE
Home	Page 3	10 section tiles, 12 month buttons
Year	Page 5	Year at a glance, top 3 goals, review
Month	Page 8	Month index: Month 01 to 12
Week	Page 429	Week index: Weeks 01 to 53 + reviews
Day	Page 536	Today: pick your day; low-energy, ta-da
Brain Dump	Page 547	Brain dumps, deadlines, task breakdown
Rewards	Page 572	Dopamine menu, reward ladder, wins
Habits	Page 577	Habit and mood trackers, by month
Focus	Page 578	Focus sessions, time estimates
Notes	Page 587	Lined notes, then dot grid

A simple daily loop

1. On **Home**, tap the month you are in.
2. On that calendar, tap today's date.
3. Write 3 things and a first tiny step for each.
4. Not done? Write it in **Carry forward**.

From a month calendar

Every month has its own 31 day pages: on Month 03, date 5 opens Month 03 · Day 5. The Wk buttons open that week. Buttons on the right open the month's Goals, Habits and Mood pages.

Printing, license and the small print

Short and plain.

Want to print?

This planner is made for screens (landscape 4:3), so it does not come in Letter or A4 sizes. If you like paper, get the **ADHD Printable Daily & Weekly Planner Pack** from the Three Things Planners shop: the same Top 3, Brain Dump and Dopamine Menu pages, laid out for US Letter and A4.

Personal use license

- You may use these files on all of your own devices, for as long as you like.
- You may print pages for your own personal use.
- Please do not share, resell or upload the files anywhere.

Not medical advice

This planner is an organizing tool designed to be ADHD-friendly. It is not medical advice and it is not a substitute for help from a qualified professional.
