Thanks for your order. Here is what's in the ZIP and where to begin.

What's inside (4 folders + this guide)

1-Digital-Planner

The undated, tap-to-jump planner for GoodNotes, Notability or any PDF app. Year, month, week and day pages, brain dump, rewards, habits and mood. Light and Dark versions, 591 pages each.

3 files (2 planners + Quick Start Guide)

2-Printable-Planner-Pack

The same Daily Top 3 system on paper: 40 undated pages in US Letter and A4, low-ink, plus 30-day Daily Top 3 files and one-page singles.

85 files (US-Letter/, A4/, README.pdf)

3-2027-Calendar

A dated 2027 calendar: 4 printable versions (Letter or A4, Sunday or Monday start, 14 pages each) and 1 tap-to-jump digital version (27 pages).

5 files

4-Phone-Wallpapers

12 focus reminders for your lock screen, made for two screen sizes: iPhone 1170 x 2532 and Android 1080 x 2400.

24 files (12 per size)

Where to start

- 1 Use an iPad? Open **1-Digital-Planner**
- 2 Like paper? Open **2-Printable-Planner-Pack**
- 3 Planning 2027? Open **3-2027-Calendar**
- 4 Want a lock-screen nudge? Open **4-Phone-Wallpapers**

Start small: pick three things for today. Anything else is a bonus. The planners are undated, so a skipped day costs nothing. Only the calendar has 2027 dates.

Printing

Print at **Actual size / 100%**, not "Fit to page". Print the calendar in **Landscape**. Black and white is all you need.

Calendar: page 1 cover, page 2 year at a glance, pages 3-14 January to December. Use Letter files on US Letter paper and A4 files on A4.

GoodNotes / Notability

Importing into GoodNotes or Notability: see **Quick-Start-Guide.pdf** for step-by-step help. The digital calendar opens on Home: tap Sunday start or Monday start, then a month.

Wallpapers and license

Put a short focus reminder on your lock screen.

Pick the folder for your phone: **iPhone-1170x2532** or **Android-1080x2400**. Save the images to your photos first (on iPhone: open the PNG in Files, tap Share, then Save Image). The top of each wallpaper is left empty for your clock and widgets, and the bottom is empty for the gesture bar.

iPhone

- 1 Open **Settings**, then **Wallpaper**.
- 2 Tap **Add New Wallpaper**, then **Photos**, and pick one image.
- 3 Tap **Add**, then choose Set as Wallpaper Pair or customize the Home Screen.
- 4 Want a new one every time? Choose **Photo Shuffle** instead of Photos and select several wallpapers.

Android

- 1 **Long-press** an empty spot on your home screen.
- 2 Tap **Wallpaper** (or Wallpaper & style).
- 3 Choose **My photos** / Gallery and pick an image.
- 4 Set it for the Lock screen, the Home screen, or both. Menu names vary a little by phone brand.

Wallpapers 1 to 6 are light, 7 to 12 are dark (easier on the eyes at night).
