18-Week Semester file: page 1 is the Semester Index. Week N starts on page 7N − 5: Weekly School Plan, Mon, Tue, Wed, Thu, Fri, Weekend. Week 1 = pages 2–8, Week 18 = pages 121–127.

Print and iPad setup

Two minutes now saves fiddling later.

Printing (Letter or A4 files)

- Set scale to **100%** / **Actual size** (not "Fit"). Print the file that matches your paper.
- To print only some pages, type the page numbers, for example **Pages 13–14** (Weekly School Plan + Daily School Top 3).
- Black + one light gray only, so black-and-white printing works fine. The left margin is about 20 mm, wide enough for a hole punch.
- The 18-Week Semester file is 127 pages. Use it on iPad, or print one week at a time (Week 1 = Pages 2–8).
- The iPad Pastel files are made for the screen, not for printing.

iPad: GoodNotes or Notability

1. Save the PDF to Files (or open the ZIP in Files and tap it to unzip).
2. **GoodNotes:** tap + then Import, and pick the PDF. **Notability:** tap Import (or the + menu) and pick the PDF.
3. Student Planner: tap any line on page 2 (Contents) to jump. Tap **Contents** at the bottom of any page to go back. Side tabs jump to each section.
4. 18-Week Semester: on page 1 (Index), tap Plan, Mon to Fri or Weekend for any week. Tap **Index** or **Week N plan** at the bottom of a page to go back.
5. If a tap draws a line instead of jumping, switch to read-only / select mode, tap the link, then switch your pen back on.

Personal use: print as many copies as you like for yourself. Please don't resell, share or upload the files. Page 32 of the Student Planner has a link to another shop product (the Printable Planner Pack). It is optional and not needed to use this planner.

Refunds and help

If it doesn't work for you, email **chenphien@gmail.com** within 14 days of purchase for a full refund. Problems with a file or a link? Same address.
