Objective 1 · The Lie

ANSWER

Rosalind Fenwick's account is false.

She says she caught the 4:50 pm bus home from the High Street stop. That bus did not run on Thursday.

KEY DOCUMENTS

D8 D12 D16

Any two of these three count as correct.

Why

1. **D8** (her interview) and her card in 02: "I left at quarter to five and caught the 4:50 bus home from the High Street stop." Priya confirms in D6 that Rosalind said she had to catch the 4:50.
2. **D12** (bus timetable): the 4:50 pm from Little Wexham is marked **S**, school days only. It does not run on school staff training days.
3. **D16** (newspaper clipping): all Wexham Vale schools were closed to pupils on Thursday, October 15, for a staff training day.

> KEEP GOING
>
> A false bus story is a lie, but a lie alone doesn't prove who loosened the rung. Objective 2 asks when and how it was done.

Objective 2 · The Method

ANSWER

Between 5:45 pm and 7:05 pm on Thursday, by someone with their own key set who came in through the back door.

The shop was locked and empty while Cornelius was at the library. The person crossed the yard from Mill Lane after the rain began, let themselves in at the back door, unlocked Door A with the same key set, and turned out the two screws of the brass top rung.

KEY DOCUMENTS

D2 D3 D6 D9 D13 D18

Why

1. **Safe until 4:15 pm:** Cornelius climbed to the top shelf twice at about 4:10 and 4:15 pm (D6, D7). Door A was locked at 4:20 pm and in view of the counter until closing (D6).
2. **Back door, after 5:40 pm:** Priya swept both mats at 5:30 pm (D6). On Friday the back mat had muddy prints (D2). The yard is earth and gravel, and rain only began at 5:40 pm (D13).
3. **While the shop was empty:** everyone left at 5:45 pm; Cornelius was at the library until he reached the front door at about 7:05 pm (D3, D6). At 7:09 pm he wrote that he was putting the atlas on the top shelf (D18), and it was found on the floor by the ladder (D2).
4. **With a key:** no forced entry and the window painted shut (D2); the spare set 3 stayed on its hook (D9). Each key set opens the back door and Door A (D9).

Objective 3 · The Culprit

ANSWER

Rosalind Fenwick.

Motive: when she rebound the Marsh Clock in September, she kept the real first edition and returned a later printing in the new binding. Cornelius found out, and she had to stop him before their 9 am meeting on Friday.

KEY DOCUMENTS

D2 | D10 | D11 | D14 | D15 | D17 | D18

Case-Checker accepts any two of these.

Why

1. **The receipt (D17):** trade account F.B. = Fenwick Bindery (02). Thursday 3:25 pm: wheat-starch paste and a fine screwdriver. It lay under the ladder in the locked room (D2), a room she says she never entered (D8). Wheat-starch paste was on the rung (D2).
2. **The note (D14 + D15):** read as shelf·book·letter (D6), it spells SWAPPED, ASK, RF.
3. **The meeting:** diary "M.C.: checked the points" and "Fri 9:00 R.F." (D11); his 3:12 pm message about "the Marsh Clock job" (D18); her September rebinding (D10, D15).
4. **Key set 4** was never returned (D9). The missing Marsh Clock was the swapped copy: removing it removed the proof.
