

ESL Offline Classroom Games

10 projector games that run in your web browser with no internet.

3 steps

- 1 **Unzip** the download (right-click → Extract All / double-click on Mac). Keep the folder together; copy it to your USB stick if you like.
- 2 **Double-click START-HERE.html**. It opens in Chrome, Edge, Safari or Firefox. **Paste your word list** in the box at the top (or choose a sample).
- 3 **Click any game**. Your list goes with it. Press **Space** to start, **F** for full screen, **?** for the rules. The **Games** button switches game and keeps the same list.

Files: **ESL-Offline-Classroom-Games-Pack/** START-HERE.html · games/01-quiz-board.html ...
games/10-quiz-choice.html · word-lists/ · docs/

Keys in every game

Space start / next **F** full screen **Esc** close a window **?** button: rules and all keys

FAQ

Question	Answer
Safari will not open the file or blocks it	Unzip first (do not open games from inside the zip). Then right-click START-HERE.html → Open With → Safari. If Safari asks for permission to open local files, allow it, or use Chrome or Edge.
Where are my saved lists?	In this browser on this computer only (localStorage). Nothing is uploaded. Clearing browser data deletes them.
New computer or browser?	In Words, click Export .txt for each list and take the files with you. On the new computer, click Import .txt .
